Introduction record(as of October 2024) - a major general trading company M, a major broadcasting company N etc.

Company Name:

TAISEI CORPORATION

**Business Details:** 

construction, civil engineering, housing and real estate

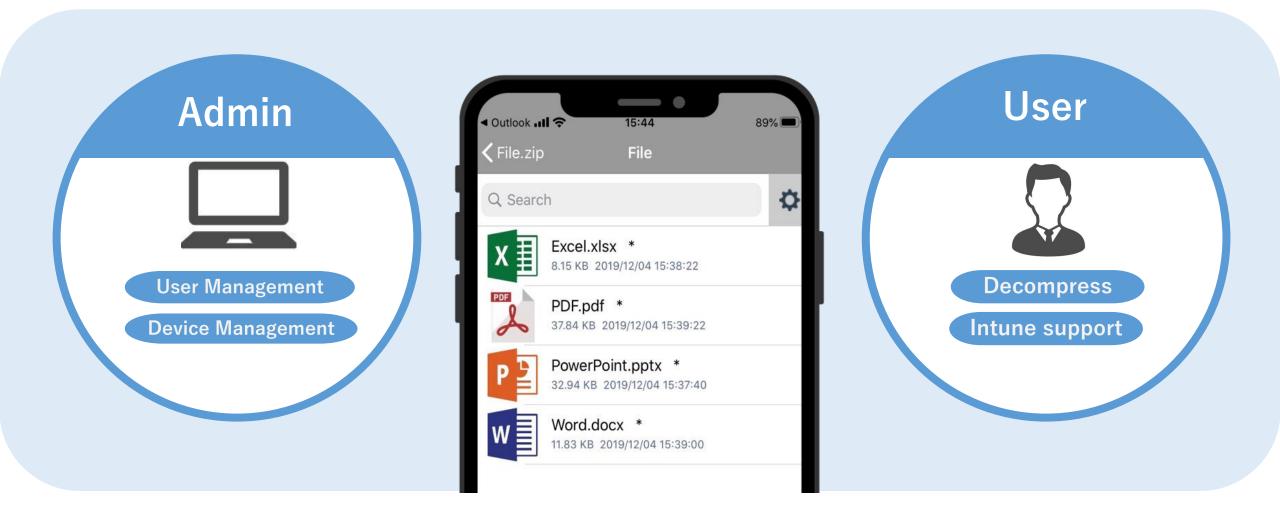

Industry:

General construction industry

## What is ArchXtract?

ArchXtract is a Zip file decompression application for Microsoft Intune. ArchXtract interact with Management Portal, and it is used for managing License. Administrators can unify the management of the application and greatly reduce the management work.

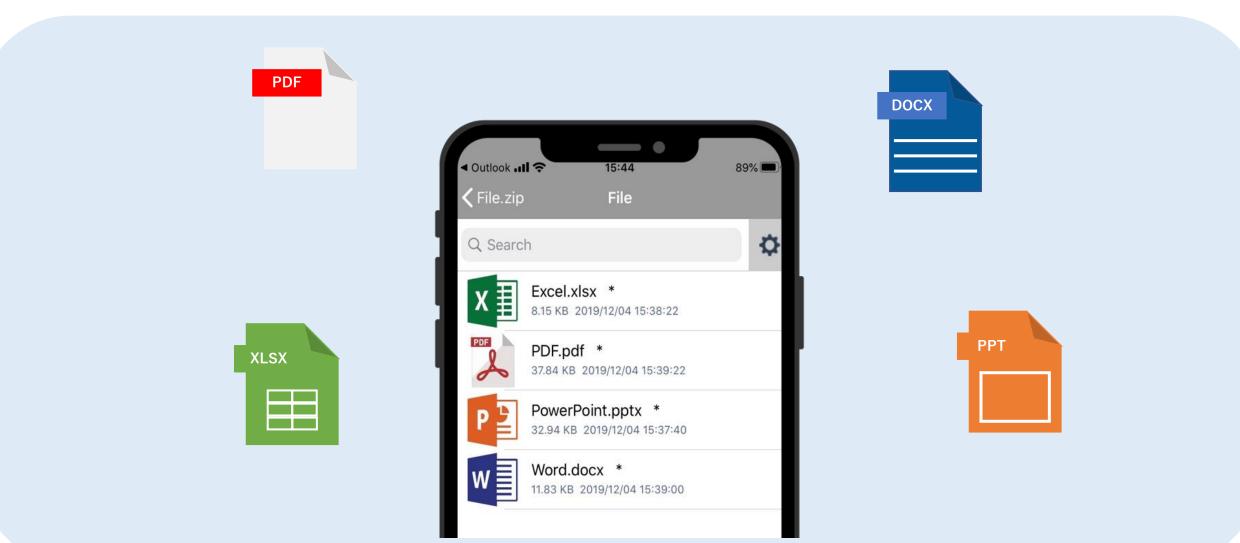

# Features 1: Wide range of compression formats

Function name	Overview	
	Process confirmed (2024.October)	Compressed form
Supported	Windows Explorer	
compression format	7Z	Deflate
		Deflate64
		BZip2
		LZMA
		PPMd
	WinZip	BZip2
		LZMA
		PPMd
	Winrar Lhaplus	
	Mac	

**%Note: Only Zip format is supported.** 

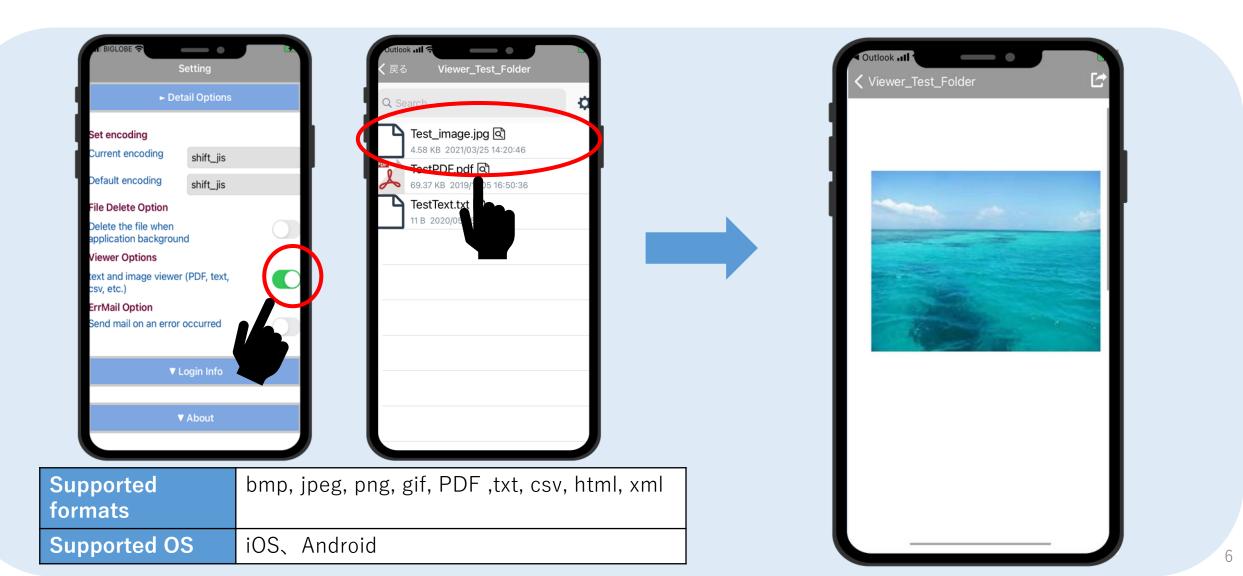

## Features 2: Decompression

ArchXtract can be linked with Intune-managed applications and can be linked with Outlook etc. to decompress Zip files.

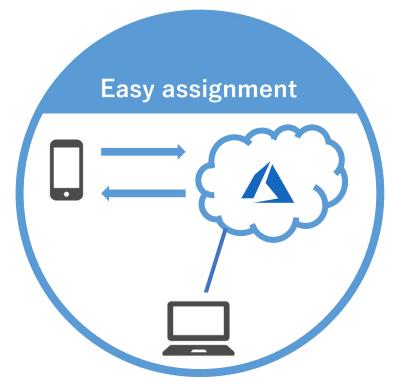

## Features 3: Viewer

The viewer function is used to display unzipped image files and text on ArchXtract.

## Features 4: Management

#### **License Automatic Assignment**

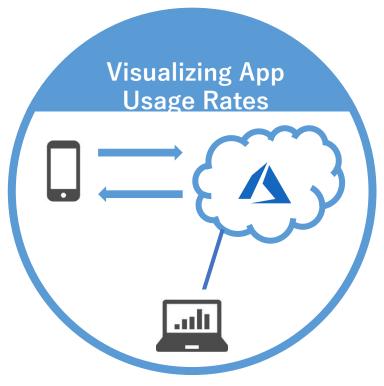

Issued licenses will be assigned via Microsoft Intune Configuration Policy. When you use the app, Intune account information and device information is sent to the CEGB server under Azure.

#### License Management

#### **License Management**

You can check the user's email address and mobile devices. You can also unassign and block unwanted devices.

#### **Visualizing App Usage Rates**

You will be able to analyze the number of times the app is used by each user. You will be able to get the correct number of licenses on your next subscription.

**X** It is a paid option. (See p.13)

## Flow of Introduction

#### STEP1

Contact

If you are interested in ArchXtract, please contact us for more information and a free trial or you can directly register through the link: https://archxtract.cegb.co.jp/en/trial-en/

#### STEP2

Quotation & Contract

We will prepare a quotation based on the number of licenses you wish to purchase.

You will be asked to sign a software license agreement separately.

#### STEP3

Preparation

After you sign up, we will issue you a license code for the number of licenses you want to use.

For more information on how to assign a license code in Microsoft Intune, please download the reference material from our website.

#### STEP4

Start of use

After installation, we provide accurate and prompt support to our customers.

We also provide support when upgrading the OS and Intune SDK.

## Post-implementation support

If you would like us to respond to you by email, please use the email address above to ask a question. Help Page

You can check frequently asked questions and basic operations.
