Change country name.

Change time zone.

Reissue of LoginId  
※ When reissued LoginId set in the Microsoft Intune configuration policy should be changed.

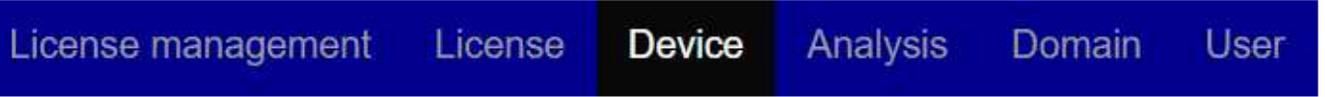

Edit tag information.

# DEVICE

## 3.1 Displaying the Device Screen

Click "Device" at the top of the screen.

## 3.2 Search

Device can be searched using filter conditions.

Device Management / List Search

1 License Code 2 E-Mail Address 3 Device ID

4 Device Name 5 License Status 6 Device Block 7 Max No. Of Display

Search

1	Searched from the contracted License code ※If you have multiple licenses
2	Search by user E-Mail address
3	Search by device ID
4	It is possible to search from the device name set for each terminal
5	Search from license status
6	Search from device block status
7	The number of pages displayed per page can be changed.

## 3.3 Display of Assigned Devices

A list of devices assigned to license are displayed.

1 2 3 4

<input type="checkbox"/>	No.	Product Name	License Code	E-Mail Address	Device ID	Device Name	Type	Valid On	Updated (TimeZone)	Allocation Status	Block Status
<input type="checkbox"/>	1	ArchXtract					iOS	2020/09/02	2020/11/17 00:43:02 (UTC -05:00)	Assigned → UnAssign	Unblocked → Block
<input type="checkbox"/>	2	ArchXtract					android	2020/08/04	2020/08/17 22:10:59 (UTC -05:00)	Assigned → UnAssign	Unblocked → Block

1	Verify user's E-Mail address
2	Check the device ID assigned to the terminal
3	Check the device name set on the terminal
4	Check the device type iOS, android, etc.

# DEVICE

## 3.4 Unassign Device – Single & Bulk

The device can be released from the allocated license; the total license count will be increased by one.

✓ on the device you want to UnAssign.

No.	Product Name	License Code	E-Mail Address	Device ID	Device Name	Type	Valid On	Updated (TimeZone)	Allocation Status	Block Status
1	ArchXtract					iOS	2020/09/02	2020/11/17 00:43:02 (UTC -05:00)	Assigned → UnAssign	Unblocked → Block
2	ArchXtract					android	2020/08/04	2020/08/17 22:10:59 (UTC -05:00)	Assigned → UnAssign	Unblocked → Block

UnAssign All  
1 ~ B. (Total: 0)

Click to UnAssign all.

Do you want to unassign the device ID

Cancel OK

Click "OK" to release the device ID.

## 3.5 Block Device

By clicking block, ArchXtract cannot be used on a blocked terminal unless it is unblocked; the total license count will be increased by one.

No.	Product Name	License Code	E-Mail Address	Device ID	Device Name	Type	Valid On	Updated (TimeZone)	Allocation Status	Block Status
1	ArchXtract					iOS	2020/09/02	2020/11/17 00:43:02 (UTC -05:00)	Assigned → UnAssign	Unblocked → Block
2	ArchXtract					android	2020/08/04	2020/08/17 22:10:59 (UTC -05:00)	Assigned → UnAssign	Unblocked → Block

Do you want to disable license assignment to device ID

Cancel OK

Click "OK" to block license

## 3.6 Unblock Device

Devices blocked in 3.5(Block Device) can also be unblocked on the same screen.

No.	Product Name	License Code	E-Mail Address	Device ID	Device Name	Type	Valid On	Updated (TimeZone)	Allocation Status	Block Status
1	ArchXtract					iOS	2020/09/02	2022/11/21 02:19:18 (UTC -05:00)	Unassigned	Blocked → Release

Do you want to release the device ID

Cancel OK

# ANALYSIS

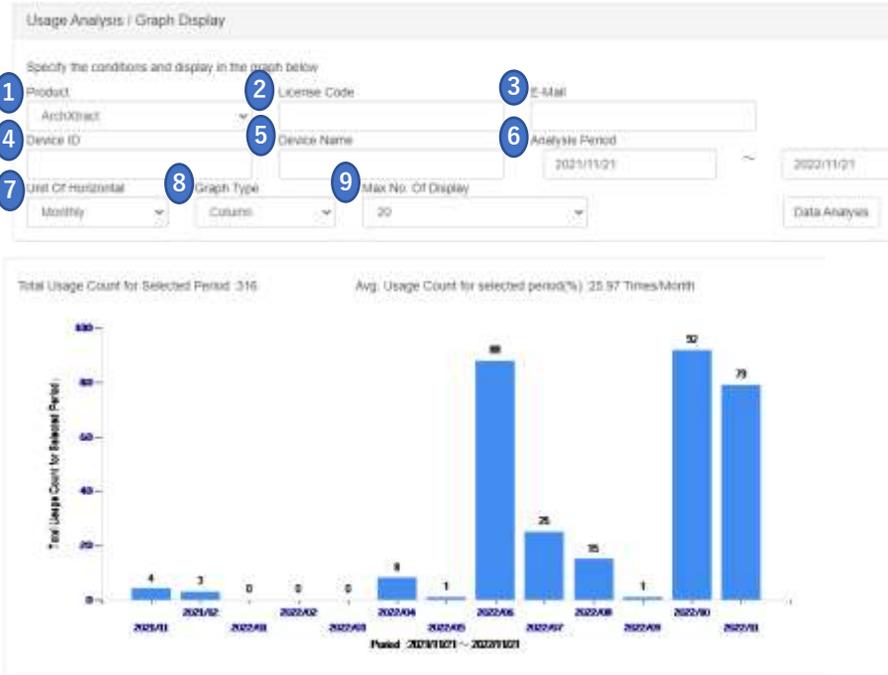

## 4.1 Displaying the Analysis screen

Click "Analysis" at the top of the screen

License management License Device **Analysis** Domain User

## 4.2 Graph Display

The Total Usage Count of the decompressed zip file can be viewed by applying filters in search conditions.

- |   |  |
|---|--|
| 1 | Specify the product name.  |
| 2 | Specify the license code for which you want to check the usage status. |
| 3 | Specify the address for which you want to check the usage status.      |
| 4 | Specify the device ID for which you want to check the usage status.    |
| 5 | Specify the device name for which you want to check the usage status.  |
| 6 | Check usage for a specified period.                                    |
| 7 | Specifying time period.  |
| 8 | Specifying the graph type.   |
| 9 | Show page count.   |

※The counted data is the number of times the zip file has been decompressed.

## 4.3 Export and Unassign

The usage details can be downloaded in Excel format, by clicking the Excel Export button at the bottom of the usage analysis screen.

## 4.4 Displaying the Usage Status of each device

The usage graph of individual devices can be viewed by clicking "Graph Details".

(※ Order of frequency of use: Calculated with the maximum number of times of use within the analysis period as 100%)

No.	License Code	Device ID	Device Name	E-Mail	Total Usage	Avg. Usage	Allocation Status
1			iPad				Unassigned <a href="#">Graph Details</a>
2							Assigned <a href="#">Graph Details</a> UnAssign

View the usage status of individual device.

# DOMAIN

## 5.1 Displaying the Domain Screen

Click "Domain" at the top of the screen.

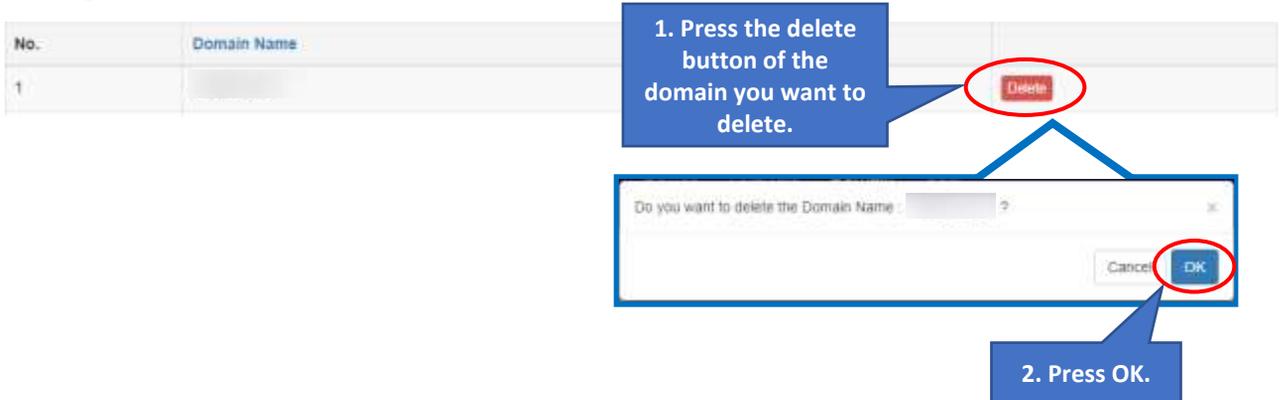

## 5.2 Domain Registration

During Trial registration, domain will be registered automatically. In addition, group companies can also be included by using this domain registration.

## 5.3 Delete Domain

The registered domain can be deleted.

# TROUBLESHOOTING

## 7.1 Forgot Password

Login password is forgotten, reset it from the forgot password.

The screenshot shows the login page with fields for E-Mail and Password, and a Login button. A red circle highlights the "Forgot Password?" and "Can't Login?" links. A callout box points to the "Password Reset" form, which includes an E-Mail field, a Password Reset button, and instructions: "Reset the current password, and set t... Please enter your email address and...". A blue callout box explains: "After entering the E-Mail address press the reset button, a reset URL will be sent to the entered E-Mail address, please follow the given instructions to reset password."

## 7.2 Can't Login

If Login is not possible even if right password is given, then there is a problem with Global IP registration. To reset, click "Can't Login".

The flowchart starts with the login page where "Can't Login?" is circled in red. A callout points to the "Are you unable to login?" screen, which contains an "IP Registration Application" form with fields for E-Mail, Reason, IP, Current IP, and Tag. A blue callout box says: "Enter all the items displayed and then click send." An arrow points down to a confirmation screen that says: "We have sent an authorization code to the address you entered to confirm your email address. Please check your email and enter your keycode". A blue callout box explains: "Authentication code (keycode) will be sent to the entered E-Mail address, enter it on the confirmation screen and click 'OK'". The confirmation screen has a text input field and "Cancel" and "OK" buttons.
